Education in Mississippi.

Macon Beacon.]

The report of the Commissioner of Education at Washington contains some statis-tics which will probably open the eyes of some Northern Radicals especially, in regard to Mississippi. It is no doubt the imression among the stalwart branch of the Republican party at least, that in this State the repressive policy is carried out in regard to the education of the col-ored people. They will be surprised to find that Mississippi is in advance of all South-ern States in this respect, and ranks high relative to the white population. A few figures and comparisons with other States of the South, will show unmistakably that we stand at the front and are doing more to educate the blacks than any State south of the Ohio. The colored school population is stated in the table referred to, for our own State, as 251,438, the actual enrollment being 123,170. We will now take the State of Virginia as nearest in numbers, and we find a school population of 248,980, with an enrollment of 68,000, and we compare alike favorably with other Southern States. When we consider what has been done

under successive Democratic administra-tions, we should think the howling dervishes of the Radical party would muffle their thunder a little, and give us some credit for what we have done for the colored race. Most of the tax to support these schools comes out of the pockets of the white peo-ple and the negroes are well aware of it, and have been weakening on Republicanism ever since the Democracy have taken the job in hand of running the State govern-

DR. J. BRADFIELD'S **FEMALE REGULATOR**

WOMAN'S BEST FRIEND.

It is well known to physicians, and alas! too well are subject to numerous diseases peculiar to their sex, such as suppression of the Menses, painful and scanty Menstruation, Congestion, Ulceration and Falling of the Womb, attended with an endless train of sympathetic and constitutional disor-ders, which embitters the whole life, and which have long been considered as almost incurable. But at last the remedy has been found in

Dr. J. Bradfield's Female Regulator. It is not a "cure-all," but a remedy for one class of discuses, all of which pertain to the Woms. Any sufferer from the diseases mentioned can take this remedy, and thus relieve herself without revealing her condition to any one and without subjecting her womanly modesty to the shock of an examination by a physician.

To bring health and happiness to the homes of suffering women is a mission before which royal favor sinks into losignificance. What earthly ben-

efaction can compare with one which protects from
"That dire disease whose ruthless power
Withers beauty's translent flower?" which gives ease for pain, joy for sorrow, smiles for tears, the rose of health for the pailor of disease, the light, clastic step for dragging wearlnoss, nights of soft repose for heavy hours of tossing restlessness, bounding vigor for languishing duliness, the sweet line of full grown beauty for the sharp and withered form of emaciation, a long life of mental, physical, social and domestic enjoyments for a few seed dogs of pain and gloom, ending in an early grave? Such is the mission, such are the results of Dr. J. Bradright, by Erstalle Resularon, which is hence truly and appropriately styled "Woman's Best Friend."

"Whites," and all those irregularities of the womb so destructive to the health, happiness and beauty of women, disappear like magic before a single bottle of this wonderful compound.

All who suffer from any of these diseases are most carnestly invited to give this great remedy a trial. It has cured thousands, and will cure you. Hon't fail to try it.
